Approval and Promulgation of Implementation Plans; Tennessee: Approval of Revisions to the Tennessee SIP Regarding National Emission Standards for Hazardous Air Pollutants and Volatile Organic Compounds**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: The EPA proposes to approve the State Implementation Plan (SIP) revisions submitted by the State of Tennessee on June 16, 1998 and February 11, 1999, for the purposes of establishing a definition for national emission standards for hazardous air pollutants in Rule 1200-3-2-.01 and incorporating by reference the definition for volatile organic compounds contained in 40 CFR part 51, subpart F into Rule 1200-3-9-.01. In the Rules Section of this **Federal Register**, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: Written comments must be received on or before August 18, 1999.**ADDRESSES:** All comments should be addressed to: Allison Humphris at the EPA, Region 4 Air Planning Branch, 61 Forsyth Street, SW, Atlanta, Georgia 30303.

Approval and Promulgation of State Plans for Designated Facilities; New York**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to conditionally approve the State Plan submitted by New York to fulfill the requirements of section 111(d) of the Clean Air Act for Municipal Solid Waste (MSW) Landfills. The State Plan imposes landfill gas emissions limits and control requirements for the existing MSW Landfills in New York which will reduce the designated pollutants. A detailed rationale for the conditional approval is set forth in the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this rule. If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule.
